

# Sistema de Oficina Mecânica

## Diagrama de classe

## Migrações

### User

```
public function up(): void
{
    Schema::create('users', function (Blueprint $table) {
        $table->id();
        $table->string('name');
        $table->string('email')->unique();

$table->timestamp('email_verified_at')->nullable();
        $table->string('password');
        $table->enum('role', ['admin', 'caixa',
'mecanico'])->default('mecanico');
        $table->rememberToken();
        $table->timestamps();
    });
}
```

### Clientes

```
public function up(): void
{
    Schema::create('clientes', function (Blueprint $table)
{
        $table->id();
        $table->string('nome');
        $table->string('telefone')->nullable();
        $table->string('email')->nullable();
        $table->text('endereco')->nullable();
        $table->timestamps();
    });
}
```

## Veículos

```
public function up(): void
{
    Schema::create('veiculos', function (Blueprint $table)
    {
        $table->id();

        $table->foreignId('cliente_id')->constrained()->cascadeOnDelete();
        $table->string('marca');
        $table->string('modelo');
        $table->string('placa')->unique();
        $table->year('ano')->nullable();
        $table->timestamps();
    });
}
```

## Peças

```
public function up(): void
{
    Schema::create('pecas', function (Blueprint $table) {
        $table->id();
        $table->string('nome');
        $table->text('descricao')->nullable();
        $table->decimal('preco', 10, 2);
        $table->integer('quantidade_estoque')->default(0);
        $table->timestamps();
    });
}
```

## Serviços

```
public function up(): void
{
    Schema::create('servicos', function (Blueprint $table)
    {
        $table->id();
        $table->string('nome');
        $table->text('descricao')->nullable();
        $table->decimal('preco', 10, 2);
        $table->timestamps();
    });
}
```

## Ordem Serviço

```
public function up(): void
{
    Schema::create('ordem_servicos', function (Blueprint
$table) {
        $table->id();

        $table->foreignId('cliente_id')->constrained()->restrictOnDelete();

        $table->foreignId('veiculo_id')->constrained()->restrictOnDelete();

        $table->foreignId('user_id')->constrained()->restrictOnDelete();

        $table->enum('status', ['aberto', 'em_andamento',
'finalizado'])->default('aberto');
        $table->text('observacoes')->nullable();
        $table->decimal('valor_total', 10, 2)->default(0);

        $table->timestamps();
    });
}
```

## Ordem Serviço Serviço

```
public function up(): void
{
    Schema::create('ordem_servico_servico', function
(Blueprint $table) {
        $table->id();

$table->foreignId('ordem_servico_id')->constrained()->cascadeOnDelete
();

$table->foreignId('servico_id')->constrained()->restrictOnDelete();

        $table->decimal('preco', 10, 2);

        $table->timestamps();
    });
}
```

## Ordem Serviço Peça

```
public function up(): void
{
    Schema::create('ordem_servico_peca', function
(Blueprint $table) {
        $table->id();

$table->foreignId('ordem_servico_id')->constrained()->cascadeOnDelete
();

$table->foreignId('peca_id')->constrained()->restrictOnDelete();

        $table->integer('quantidade');
        $table->decimal('preco_unitario', 10, 2);

        $table->timestamps();
    });
}
```
